STORY

Welcome to MI+ME! It's pronounced *me and me...* But we're not (just) a bunch of narcissists... Our name actually pays homage to the code names for the train carriages that brought meat and milk to London way back when. These carriages were named *mica* and *milta* and in bygone days they would come to rest just beside our cosy restaurant.

These days, we source quality British 'mica and milta' for our burgers and shakes. Accompanied by our house bottled cocktails, craft beers or a bottle of wine.
